Education

Shah and Anchor Kutchhi Engineering College (University of Mumbai)	2023 – 2027
Bachelor of Technology in Information Technology	CGPA:9.50
R. J. College, Mumbai	2022 – 2023
Higher Secondary Certificate	80.50%
S.V.V.N School, Mumbai	2020 – 2021
Secondary School Certificate	97.00%

Technical Skills

Programming Languages: Python, Java, C, SQL, HTML, CSS
Testing Skills: Manual Testing, Functional Testing, Integration Testing, Bug Reporting
Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Flask, Sentence Transformers
Databases: MongoDB, MySQL
Tools: Git, GitHub, VS Code, Postman, Streamlit, React.js
Core Subjects: DSA, DBMS, Operating Systems, OOPs, Computer Networks, SDLC, STLC

Experience

Amazon ML Challenge 2025 Jan 2025
Machine Learning Hackathon

- Developed machine learning models for product price prediction using real-world datasets.
- Performed data preprocessing, feature engineering, and model optimization.
- Collaborated in a team environment to solve an end-to-end ML problem.

Projects

AI-Powered ATS Resume Coach *Python, Flask, React.js, NLP, Sentence Transformers*

- Developed a full-stack ATS platform that analyzes resumes against job descriptions using NLP and AI semantic matching.
- Implemented resume parsing, skill extraction, ATS scoring, and skill-gap analysis with personalized recommendations.
- Integrated Sentence Transformers (all-MiniLM-L6-v2) and cosine similarity for contextual resume-job matching.
- Built REST APIs using Flask and an interactive React dashboard for real-time resume evaluation.

Inventory Management Web Application *React.js, Node.js, MongoDB*

- Designed and developed a web-based inventory management system.
- Implemented CRUD operations and inventory tracking functionalities.
- Managed structured data storage and retrieval using MongoDB.
- Created dashboards to visualize inventory trends and usage patterns.

Solar Power Prediction Using Weather Conditions *Python, Pandas, NumPy, Scikit-learn, Streamlit*

- Conducted exploratory data analysis (EDA) on weather datasets.
- Performed data cleaning, normalization, and feature engineering.
- Developed an interactive dashboard using Streamlit for visualization and predictions.

Certifications

- Python Full Course for Beginners – Udemy (Angela Yu) Jan 2025
- Complete Guide in HTML, CSS & JavaScript – Udemy (Jerome Morales) Jul 2024
